JUMPOFF BUFFALO RANCH IS LOCATED IN HARDING COUNTY, SD, THE HEART OF BUFFALO COUNTRY

The ranch name derives from the expansive mud buttes and landmark mini-badlands known as The Jumpoff.

Our herd originated from 150 heifer calves purchased from the Slim Buttes Buffalo Ranch in 1997. Our current bull battery consists of bulls that have come from performance tested and genetically proven production animals. This has helped to build a solid genetic base in our herd with results showing in our calf weaning weights and in our feeder animal gains.

Our animals are bred for fertility and performance. All herd cows are culled based on their overall condition and fertility, meaning they produce a calf every year. Performance = pounds!

Performance is important for both our bulls and our cows. Efficiency, performance, and conformation is how we select our top bulls for this offering.

These JBR animals are top cut. This is your chance to buy the best of the best in JBR genetics. All of our heifers are bred to hand selected Skull Creek Bison bulls.

You can buy with confidence in both genetics and performance with this offering of JBR animals.

We appreciate all of our past and future buyers
