phonograph

This collection is phenomenal and the content is staggering. Hundreds of machines, rarity after rarity, and multiples of desirable and sought after examples about. As found examples acquired and accumulated by Mr. and Mrs. Ellis over the course of five decades, makes this an offering that any collector, museum and investor will not want to miss.

Regretfully, Mr. Ellis passed away on February 27 at the age of 87. This collection is a tribute to his efforts to acquire and accumulate wonderful and desirable machines in this field, along with his wife Harriet during their 68 year marriage.
